Hall:

Booth-No.:

Company:

4.3	Flat rate for water consumption		31,30		
4.4	proportion of pipe bridges to the exhibition stand on lent		45,00		

Further work is calculated on the basis of the material used and the time required.

It should be noted that the prices stated do not include Value Added Tax (VAT) and apply to standard connection devices in accordance with the German norm (Geka). Should special connection material be required, this can be provided on request, provided that the relevant information is provided in advance.

A basic sketch with precise details of the required connection points must be submitted with the order on the enclosed form.

If the cable routes have to be laid in the aisle area or in the area of another exhibition booth, the consent of the organiser or the exhibitor concerned is required! We will always endeavour to carry out the installation in accordance with the order, but there is no entitlement to this. After checking the documents, you will receive a confirmation with a sketch of the cable routing.

Terms of delivery and payment/ guidelines

1. This form must be completed and submitted to the relevant authority in order to request a water or wastewater connection. Please be advised that the order and a site plan must be submitted to the event/exhibition management at least 4 weeks prior to the beginning of the setup process. In the case of water connections that are essential for the continuation of booth setup, exhibitors are kindly requested to provide the latest installation date.
2. Please note that installation companies reserve the right to charge a 25% surcharge for orders placed after the specified deadline and a 50% surcharge for orders placed on the final setup day. In the instance of an exhibitor cancelling, the full cost will be incurred unless the contracted installation company is notified in writing at least three days prior to the commencement of the exhibition.
3. The contracted company is responsible for providing water pipes, shut-off valves, faucets, sinks, and other necessary equipment on a rental basis. All items remain the property of the contracted company. It is the exhibitor's responsibility to ensure that all materials are complete and undamaged at the close of the exhibition. This will enable the installation company to safely disassemble the booth or collect the items. Any items that are not returned to the installation company in the same condition as they were provided will be subject to a daily billing charge.
4. Please be advised that water hoses are not permitted during the installation process.
5. Unauthorized tapping into existing pipes is prohibited and entitles the contracted company to disconnect the supply.
6. The exhibitor is prohibited from opening and drawing water from the supply shafts. Any violations and the resulting damages will be charged to the exhibitor.
7. No liability is assumed for the consequences of pressure loss, pressure fluctuations, or damage to the system. Technicians are available for troubleshooting during the event.
8. Please note that water consumption in excess of normal usage (e.g. for swimming pools or continuous operation of equipment) may be subject to additional charges.
9. It is the responsibility of the booth manager to close the shut-off valve at the end of each day.
10. The contracted company is not liable for damages to property or persons caused by pipes not under its ownership.
11. The jurisdiction is Hannover city.
