Installation date: at _____ at _____ (if no date is specified: completion at the start of the set-up!)

Ceiling suspension points:

Due to the architectural and structural differences between the halls of the Hannover Congress Centrum, it is not possible to order ceiling suspension points using a standardized order form. You can use this form to request a quotation for suspension points above your stand. Please also submit **form 1.1 Stand sketch** or your own drawings with the necessary details!

The maximum load per on-site suspension point in Niedersachsenhalle is 400 kg.

The maximum load per on-site suspension point in the Eilenriedehalle is 500 kg.

The Glashalle has no on-site suspension points. Suspensions are not possible here.

Item	Unit	Price per item in EURO net
Point for ceiling suspensions with rope for load transfer with open end and wedge end clamp	Piece	95,00 €
Point for ceiling suspensions with rope for load transfer with O-ring at specified height	Piece	99,50 €
